Frank Williams  
Blue Marble Services  
Katy, Texas

Dear Frank,

I just wanted to thank you for introducing me to JEP 14. I have used this product in my six compressor plants, and it has worked flawlessly. It has also been used in at least two compressor plants in our West Region, with the same results. I would recommend this product to whoever operates compressor plants. This product cleans everything from the oil on engine room floors to the countertops in the break room.

Another big selling point, besides how well the product works, is the fact that it is environmentally safe. Atmos Energy, along with most companies is always looking for ways to protect our environment. Using JEP 14 offers us a safe way of keeping our equipment clean, without harming the environment.

Don't hesitate to use my name as a reference for a satisfied customer of JEP 14.

Sincerely,

A handwritten signature in black ink that reads "Tim Collier". The signature is written in a cursive style with a long horizontal line extending from the end.
