# JEP-12

## FOAMING DEGREASER/CLEANSER

### PATENTED DESIGN FEATURES

- Wet Penetrating Foam Cleans Deep – Saves Labor
- Highly Concentrated Formula Assures Economy In Use

### PROFESSIONAL RECOMMENDATIONS

- Allow time for product to work
- **Use** only hot water for dilution
- **Use** dispensing gun for accurate dilution

### EQUIPMENT LIST

- ✓ Scraper
- ✓ Stiff bristle brush
- ✓ Dispensing system with foam delivery gun

### SPECIFICATIONS

**Appearance:** Clear, red liquid

**Odor:** Characteristic

**Density** (lbs/gal) ( $\pm 0.1$  @20°C): 8.66

**pH** (Conc.) ( $\pm 0.5$  @20°C): 11.2

**Refractive index** ( $\pm 0.0020$  @20°C): 1.3629

**Hard water tolerance**

(hardness as  $\text{CaCO}_3$ ): Greater than 8,000 ppm

**USDA rating:** A-1

**Stability** (40°-120°F): Stable

**Freeze/thaw stability:** OK 3 cycles

**Shelf life** (Closed containers, 40°-120°F): 1 year minimum

### DIRECTIONS

Read all directions and cautions prior to beginning work. Remove or cover all foods in areas to be cleaned. Rough clean and scrape gross deposits of waste matter, bone, oil, and fat or meat particles from surfaces to be cleaned. Remove hand tools and cutting boards for hand cleaning. Open all mixers and saws.

For foam application, fill reservoir with full strength solution. For most cleaning, the proportioner on the reservoir should be set to 128:1 (1 oz. per gallon). For manual application, dilute product 64:1 (2 oz. per gallon). Using hot water, apply foam liberally to surfaces, working from the bottom up.

Allow **JEP-12** to work at least 5 minutes.

Rinse surfaces thoroughly with warm potable water and allow to drain completely before reusing.

Wear safety equipment recommended on MSDS, place wet floor signs and read all directions and cautions prior to beginning work.
