JEP-25

CONCENTRATED CLEANER/DEGREASER WITH D-MARK

PATENTED DESIGN FEATURES

- Recognized by the USEPA Design for the Environment
- Instantly Removes Oily Soils
- Removes Rubber Marks Easily
- Contains Only Readily Biodegradable Ingredients
- Concentrated for Maximum Economy Use

PROFESSIONAL RECOMMENDATIONS

- Use this product regularly for best results
- USE "grit" type brushes on your autoscrubber to enhance cleaning on unfinished concrete and other industrial floors
- Overlap your cleaning passes to assure uniform cleaning and "double scrub" when heavy soil is present
- When mop cleaning, change cleaning solution frequently to get peak performance. Do not let mop rest in cleaning solution between uses

DIRECTIONS

Wear safety equipment recommended on MSDS. Read all directions and cautions prior to beginning work. Remove loose soil and garbage. Before cleaning floors, place Wet Floor signs near work area.

Dilute JEP-25 with water as follows:
General Cleaning: 1:32 to 1:128
Floor with Tire Marks: 1:15
Heavy Tire Marks and Soils: 1:4 to 1:8
Note: Using warm water when diluting JEP-25 will help to remove rubber tire marks more easily.

Apply to surface liberally while scrubbing. Allow to work. If soil is heavy, double scrub with an auto scrubber (First pass, squeegee up; second pass, squeegee down, vac on). Pick up as much solution as possible. If possible, allow floor to dry before traffic resumes on cleaned area.

Wear safety equipment recommended on MSDS, place wet floor signs and read all directions and cautions prior to beginning work.
